Chief of Police

Key West

POLICE DEPARTMENT

TO: Steve Muffler, Executive Director CRB

FROM: Lt. David T. Smith, Professional Standards Division

SUBJECT: TASER Usage 01 July 2010-30 September 2010

DATE: 27 October 2010

As per your request, the following data contains TASER usage for the quarter beginning 01 July 2010 and ending on 30 September 2010. Each time a TASER is displayed or used it is captured in CAD by a "TASER Disposition" note. These notes do not delineate if it was a deployment, drive stun, or just a display. By taking the total number of TASER Dispositions from CAD and comparing it to the actual Response to Resistance Reports, I was able to show the following statistics.

During the above time period, the TASER device was reportedly utilized on 28 separate occasions. The usage includes Displays, Drive Stuns and Deployments of the TASER device.

Of the 28 reported usages, the units were fully deployed a total of four (4) times (one being a miss), and the Drive Stun mode was used on one (1) occasion.

Response to Resistance Reports were generated and forwarded to the Professional Standards Division for review and filing on each of the deployments and the Drive Stun.

If you have any questions regarding any of the above data, please do not hesitate to contact me.

CC: Chief Donald J. Lee, Jr.
